

KONICA MINOLTA

Security Statement

The payments service provided by Konica Minolta Business Solutions Australia Pty Ltd is hosted by IP Payments. IP Payments is a specialist supplier of corporate payments solutions. This payment service is hosted on a Level 1 PCI DSS and ADI compliant platform and infrastructure independently audited by a QSA and APRA. All data and infrastructure is securely stored and located within Australia.

IP Payments ensures confidential information remains secure through the use of multiple layers of security and industry standard encryption technologies.

From the moment you submit your payment, confidential data including credit card details are encrypted using 128-bit SSL certificates and in accordance with American Express, Visa and MasterCard standards your credit card details are never stored in clear text.

You can confirm you have established a secure SSL connection by looking for the locked padlock in the status of your browser. You can confirm the validity of the certificate by double clicking the padlock and checking that the certificate;

- Has been issued to www.ippayments.com.au
- Issued by Thawte Premium Server CA
- The date range is valid

If the certificate appears invalid then do not proceed with the transaction, take a screen shot of the certificate and email to support@ippayments.com.au for further assistance.
